ABOUT SCB

Sriram Chandra Bhanja College & Hospital is a pioneer in medical education and excellence. The Institution dates back to its establishment in the Pre-Independence era and started as a small dispensary during the Maratha rule. Starting as small as a dispensary, the then-ruling British Government understood the deliberate urgency of medical attention and transfigured it into a Hospital. In 1875, the hospital was overhauled into a Medical college and was known as Orissa Medical School.

In 1953, the Orissa Medical School was subsequently renamed SRIRAMA CHANDRA BHANJ MEDICAL COLLEGE in recognition of the donation and efforts made by Mayurbhanj State Maharaja Srirama Chandra Bhanj Deo. The Dental Department was established in 1944 and was given the status of a Dental Wing in the year 1983 with an intake capacity of 20 students. The college started with post-graduate in two specialities namely Pedodontics & Preventive Dentistry and Oral and Maxillofacial Surgery in the year 2008. The Government of Odisha was elated with the services provided by the Dental wing and upgraded the wing to SCB Dental College on 28th January 2010. At present SCB Dental College & Hospital provides post-graduation programmes in all nine specialities. Today, the college stands tall in rendering exceptional patient care and is the epitome of academic excellence.

ABOUT SYMPOSIUM

The Silver City of India takes immense pride in organizing the 21st National OOO Symposium which is hosted by SCB Dental College and Hospital. The conference is being organized under the patronage of the Indian Academy of Oral Medicine and Radiology (IAOMR) in collaboration with the Association of Oral and Maxillofacial Surgeons of India (AOMSI) and the Indian Association of Oral and Maxillofacial Pathologists (IAOMP).

Oral Medicine and Maxillofacial Radiology, Oral and Maxillofacial Pathology and Oral and Maxillofacial Surgery are immensely vital departments in the field of medicine and dentistry and play a significant role in patient diagnosis, management and prognosis of practically all Oral and Perioral diseases. The three specialities are not just interdependent but also know the importance of the fellow speciality in rendering successful patient management and treatment.

The theme of the conference this year is "Oral Frontiers: Uniting Expertise and Unveiling the Potential." Our theme highlights the importance of bringing together experts to collectively uncover the untapped potential that exists in the field of oral health. Unveiling the potential encapsulates the idea that within the realm of three disciplines lie many opportunities waiting to be explored. The theme encourages participants to delve into uncharted territories, explore innovative diagnostic and treatment approaches for enhancing patient care and setting a new realm in the Oral Healthcare.

We, at SCB Dental College and Hospital, strive to provide quality knowledge regarding the specialities through keynote lectures, faculty and postgraduate presentations. We expect a resounding response from all the delegates from various parts of India and abroad. We look forward to make the the 21st National OOO Symposium a successful and indelible experience.
